## NUMEROUS CRIMINAL CASES DISPOSED OF

In the matter of clearing up the criminal docket Tuesday was a right busy day in the U. S. court. A dozen cases were dismissed and a dozen more were continued for the term.

Those dismissed were Byous Sweat, Bud Barson, Oscar Hybarger, gaming; Charlie Agee, disposing, two cases; Harve Brumley, disturbing religious worship; Oscar Hybarger, Joe Roberts, Bob Sweat, Jack Matthews, gaming; Arthur Cavington, Pink Duncan, Bill Huckaby, gaming; John Rombo, Guy Ernest, disturbing peace; Albert Buchanan, weapon; Will Stanton, disposing; George Milton, Lige Milton, weapon; Ab Keen, weapon.

In the case of Will Stanton, charged with disposing, the jury returned a verdict of guilty.

Dep Rain was tried on a weapon charge and was acquitted.

F. Davis of Roff, charged with assault with intent to kill, pleaded guilty to aggravated assault and was fined \$30 and given one day in jail.

A. J. Douglass, accused of the theft of a watch at Francis, was discharged by the court, he having served 30 days in jail already.

Wednesday in the divorce cases of Belle Cross vs. Joe Cross and of Henry Esser vs. Susie Esser, the plaintiffs were granted decrees.

Several probate and civil matters were taken up and disposed of Wednesday.

## STRONG RESOLUTIONS ADOPTED AT SHAWNEE

"Shawnee, O. T., March 20, 1906. To the House of Representatives, Washington, D. C.

One thousand representatives from every part of Oklahoma and Indian Territory, hurriedly called together to make a final appeal before you act upon the senate amendments to statehood bill, implore you to accept those amendments and thus end our long struggle for admission into the union."

The above is the first clause of the resolutions framed by the Shawnee statehood convention and forwarded to the house of representatives, though each succeeding paragraph of those resolutions contained expressions of truths modified by appeals calculated to make the angels weep and God to curse the power which so thoroughly exemplifies man's inhumanity to man.

Practically the entire day was given to the discussion of the phrase in the foregoing paragraph which implored the house to accept the senate amendments to the statehood bill, the minority of the committee and convention favoring elimination of phrase and instead a direct appeal for statehood without regard to the manner of house procedure. The contest was very close in the committee rooms, but when the majority report was given to the convention, by request by Judge H. M. Furman, the thousand members of the convention almost unanimously adopted the report of the committee.

The following are the main resolutions adopted Tuesday by the statehood convention at Shawnee, addressed respectively to the president and the people:

**MEMORIAL TO PRESIDENT.**  
Representing the people of Oklahoma and Indian territory, assembled at Shawnee, Oklahoma, in mass convention, respectfully refer you to the resolutions of our convention adopted today, and transmitted to congress today, on the subject of statehood, which lies nearest the hearts of our people. We need not discuss facts to you. You are cognizant of the situation. You know it will be humiliating and disastrous to us and discreditable to the American nation and people, if congress adjourns while we are still knocking for admission. Remembering your promise to the people of Oklahoma and Indian

territory we respectfully request your continued cooperation in securing that end. Our people without regard to party or politics, having an exalted opinion of your character, implicitly trust that declaration, an additional reason for our faith is that we feel that you have the power to make your promise good, and we appeal to you to use your personal influence to secure the adoption of a statehood bill for us at the present session of congress. You risked your life to liberate a million aliens in Cuba, use your influence to liberate a million and a half of your friends and fellow citizens in Oklahoma and Indian territory.

### ADDRESS TO THE PEOPLE.

"We, the representatives of the people and commercial bodies of Oklahoma and Indian territory in convention assembled in the city of Shawnee on this 20th day of March, 1906, embrace the opportunity to thank you for the interest and aid which you have so generously given us in our fight for statehood and self government, and we appeal to you to continue your unselfish efforts in our behalf until congress shall have passed and the president shall have signed an enabling act making the great state of Oklahoma the forty-sixth state in the blue field of 'old glory' and bringing peace and contentment and prosperity to almost two millions of industrious and law-abiding Americans. We recognize that our petitions, backed by an intelligent and enlightened public opinion and by a courageous and untrammelled press, must be heard, and we respectfully urge that you exercise your great powers in our behalf now, when our cause has reached its most critical stage. We want statehood along the lines of the Hamilton bill, as amended by the senate in its application to Oklahoma and the Indian Territory and we do not desire to meddle in the affairs of Arizona and New Mexico or to be drawn into any controversy between the various branches of the government over questions which do not concern us and whose consideration in connection with our just rights have so frequently and so long delayed the consummation of our hopes. (Signed)  
C. E. Hunter, Chairman.  
R. E. Campbell, Secretary.

## STATEHOOD BILL THURSDAY; CURTIS BILL ON FRIDAY

Special to the Evening News.

Washington, March 21, 4:15 p. m.—In the house of representatives today the taking up of the statehood bill was postponed until tomorrow. It is thought Speaker Cannon was afraid of the contest today, not yet being sure of enough votes to carry his point.

Congressman George R. Patterson, of Oregon, fell dead on the floor of the house today.

The conference committee in charge of the Curtis bill will have completed their draft tomorrow and the same will be reported to congress Friday when it is expected the bill will be readily passed.

### Senator Bailey's Father Dead.

New Orleans, La., March 21.—J. W. Bailey, father of Senator Bailey, died early this morning. Senator Bailey is on his way here. Mr. Bailey was born in New York in 1834, but was educated in the South, and has long been a prominent resident of Crystal Springs, Miss., from whence he was brought here for an operation, from which he never rallied.

## BILL TAKEN UP UNDER PROTECTION OF THE RULE

Washington, March 21.—The statehood bill will be taken up in the house today under the protection of a special rule, the adoption of which will be the necessary step on the part of the house to get the bill into the hands of a conference committee of the senate and house. Forty minutes debate will be divided between the friends and opponents of the rule when a vote will be taken.

The special rule is declared to be the only way the bill can be taken from the speaker's table as otherwise it would have to go to the committee on territories because of the senate amendment making a different disposition of certain government property than was contemplated in the house bill. If this amendment

had not been made a motion to concur in the senate amendments would have been in order as taking precedence over a motion to disagree.

A meeting of the republican "insurgents" is contemplated. Their leaders say the rule probably will be adopted but that while they have no real objection to sending the bill to conference, they will vote against the rule as they consider it instructions to the house conferees that they are not to report unless they can reach an agreement in accordance with the house bill. They predict that the vote today will be the last one in which the "regulars" can hold their strength and that if a report comes in Arizona and New Mexico will be eliminated from the bill.

## WOULD DONATE MINERAL LAND TO SCHOOL FUND

Washington, Marh 21.—Mr. Stephens has introduced a joint resolution which, if passed, would authorize the Secretary of the Interior to purchase the mineral lands in the Choctaw and Chickasaw Nations of the Indians at a price not to exceed \$5,000,000. Then, according to the resolution, the mineral lands would be donated to the new State in lieu of the \$5,000,000 which it is proposed to give it in money as a school fund. The condition of the gift would be that the mineral rights are to be leased, but with the provision in every lease that if used to establish a monopoly, or if obtained directly or indirectly by a railroad company, the lease is to be void. The resolution would provide for the sale of the surface.

### Notice.

There are a number of unmarked graves in the new cemetery due from the fact that burial was permitted before a plat of the ground was made. Friends or relatives of such parties buried are requested to give names and location of graves to the sexton at once. This matter should be attended to at once so that a correct plat may be kept. 6t 310 1tw

### Ada Begins the Boycott.

To George A. Harrison, of the big retail mercantile firm of Reed & Harrison, belongs the honor of launching in Ada the statehood boycott against Illinois commerce as a rebuke to Speaker Cannon's tyrannical stand against the interest of the two territories.

Wednesday forenoon a drummer entered the store of the above named firm, introduced himself to Mr. Harrison and evinced a desire to sell him a bill of goods. "Where is your house?" inquired the latter.

"In Illinois," frankly replied the unsuspecting salesman.

Mr. Harrison abruptly walked back, sat down and complacently puffed his cigar. The drummer followed him and asked why his cool and indifferent manner.

"Well," Mr. Harrison explained, "so long as an Illinois congressman keeps us out of the Union, as Cannon is doing, so long I will not buy a nickel's worth of goods in Illinois."

The drummer scratched his head a moment and thus concluded the interview: "I guess I'd better go wire the house."

Let all other patriotic merchants of these territories do likewise. There's a reason.

Old men, young men, youngsters of tender years elbowed and jostled one another in their mad maudlin curiosity to behold the arbitrament of woman's shame.

Carrie House and Lena Bonds are the names the accused women bear. The prosecution was brought about by citizens of 4th street in North Ada, where the parties have recently been living.

After a volume of graphic evidence was adduced and the smoke and slime of the legal battle had cleared the jury adjudged the defendant Carrie guilty and a fine of \$25 was promptly assessed. The other case was continued till Saturday.

**Ducks Were Singed.**

"While Joe Appleman and Bill Kicker were duck shooting in the reservation yesterday they sighted a bunch of queer looking birds swimming on a pond," says the Perry Republican. "They shot and killed a number of them and upon investigation discovered they were ducks with all the feathers burned off. The peculiarity was explained by Judge Harris who said they had come in contact with the blaze of the Caney gas well on their way south."

"This is confirmed by the dispatches that state hundreds of migratory birds, being attracted by the light of the well, fly into the light and overcome by the heat fall to the ground thoroughly cooked. All Southern Kansas is now eating free roast duck."

**Just Like His Father.**

At the Grant family dinner last week Major General Frederick D. Grant told this story on himself:

"I was booked to speak at a large dinner in town and the toastmaster felt it incumbent upon him to make my path as smooth as possible. He therefore spoke of my father and said that I strongly resembled him. This had the desired effect on the people present and they gave me their best attention. Although I spoke as well as I could, I felt that everyone was disappointed in me, and I sat down with relief that it was over. The toastmaster rose and smiled at me. Then he said to the guests: 'Didn't I tell you that he was just like his father. He can't speak worth a cent.'"—Ex.

**Commercial Club—No Quorum.**

Tuesday night was the regular meeting time for the Commercial Club, yet there was not a corporal's guard present. Scarcely anyone was there besides the president. Members should not allow their interest to flag; they should be promptly on hand every meeting night without waiting to be conscripted and pulled out.

**Banker in the Toils.**

J. E. Guier of Stonewall was arrested Tuesday on a new indictment charging him with conspiracy to defraud W. L. Cockran and others. The accusation grows out of certain dealings of the Citizens' Bank & Trust Company of Stonewall, an institution which recently went defunct and with which Mr. Guier was connected. His bond was first placed at \$5,000, then at \$3,000, which at last reports had not been furnished.

**He Broke In.**

Tuesday afternoon D. F. Maddox and a negro, one Ed Gatewood, were arraigned before Judge Dickerson of the U. S. court on the charge of dealing in the notorious beverage, Choctaw beer. After a thorough examination the judge concluded the parties had suffered sufficient imprisonment, and discharged them. However, the judge is fond of joshing with his prisoners. In discharging Edward he jocularly enjoined him to go break in jail.

Normally the negro is a levitous person; but in the court room they are invariably grave. Ed took the order as a solemn decree of the court. In a few minutes the jailor heard a terrific knocking in the rear of the jail yard and a creaking of the palisade timbers. On his demanding "who's there" and "what's doin'," there came the response, "De judge say as how I's got to break in dis jail agin, and I's sho guine to do 'er!" The jailer insisted that if he had to break in to come around and break in at the grand entrance. This Ed proceeded to do, and he was still contentedly crouching behind the bars at last accounts.

It is thought the judge will now have to slip him a saw and order him to break out before he can be got rid of.

# DO YOU FEEL LIKE THIS?

Here is a Victim of Neglect

Bad digestion was the starting point. He ignored the warnings sent up by an overloaded and suffering stomach, hence the disorder spread until it has seriously weakened the entire digestive apparatus, involving the kidneys, liver and bowels. It is the beginning of a sick spell.

A person in this state of health finds work a burden. Strength and energy are gone, he can't eat with relish, he is tired, cross, nervous and dull—a truly useless and disagreeable person. The worst part of it is that such a person is liable to take any dangerous disease that may be about. Pneumonia, Consumption, Bright's Disease, Cholera, Typhoid or Yellow Fever, Malaria, Small Pox would find him an easy mark because his system is weakened by impurities which are poisoning his very life-blood. In this condition a powerful system cleanser and regulator is urgently needed, and for such purpose what more effective remedy can be found than the justly celebrated

## Prickly Ash Bitters

**A Remedy that Has Proved Its Value for Blood, Kidney and Bowel Disorders in a Brilliant Record of Cures Performed**

It is the **RIGHT** medicine for such purpose, the best and greatest system cleanser and regulator. It combines the fine tonic properties of a kidney medicine, stomach, liver and blood purifier with a genial regulating influence in the bowels. It will gently urge the vital organs to a better and more complete performance of their duties, give them strength and tone and restore healthy activity throughout the body. When the system has been cleared of obstructions and the kidneys resume fully their office of purifying the blood, the general condition takes an upward turn. Appetite and digestion are improved, the eyes are brighter, the hollow cheeks fill out, the complexion loses that sallow, muddy cast, giving place to a clear skin and ruddy glow. These are the signals of returning health, and they bring that thrill and joy of living and interest in life's duties that only those in perfect health enjoy.

Some dealers will try to sell you something which they say is just as good as PRICKLY ASH BITTERS. **DON'T TAKE IT.** Get the genuine with the large figure 3 in red on the front label. It will give you the results you desire. Put up in 19 ounce bottles. PRICE \$1.00.

## GRASS

Did you ever notice how eagerly the corn-fed horse seeks the grass in the Spring? Not solely because he's hungry, instinct tells him he needs it. His system demands a tonic and purgative to drive out the impurities, and the young tender grass is his natural medicine. All animal nature craves its particular "Spring Tonic" and purifier and none have greater need of it than the human animal. Man, because none give their digestive organs so much abuse. All men acknowledge nature's cry for relief from Winter's impurities, but there are thousands who do nothing to satisfy this need, and it is among these that disease reaps its harvest of death every year. The man who knows the value of a strong vigorous body when hot weather works a drain upon his strength will use for a couple weeks in the early Spring a good blood purifier and system regulator; and where can you find a better remedy for this purpose than PRICKLY ASH BITTERS: the great blood, liver and bowel cleanser and system regulator that has done so much for working people. It vitalizes the blood and puts the entire system in condition for Summer work. Try it.

### PETITIONS FOR TROUSERS.

**Boy Uses Novel Method to Induce Parents to Take Him Out of Knickerbockers.**

Chicago.—Municipal ownership and referendum petition advocates have their eyes on the home of N. Banks Cregier, son of a former mayor of Chicago. Ellsworth B. Cregier, the 15-year-old boy of the home, who secured the name of 50 experienced fathers and mothers to a petition asking his parents to take him from knickerbockers and provide long trousers, will probably run for alderman in his ward if his unique method of carrying his point is successful.

Ellsworth is a student of the Lake View high school, where he says he is ridiculed because he still wears short trousers, although he is five feet five and one-half inches tall. He tried to induce his mother and father to secure long trousers for him, but to no avail. They said he had to wait eight months more, until his sixteenth birthday.

Rather than continue a sufferer in the Fauntleroy bloomers, he circulated the following petition among the tenants of the Nordica building at 736 Fullerton avenue, where the Cregier family lives:

"To Mrs. N. B. Cregier: We, the undersigned, do most earnestly advise and request the application of long pants to Ellsworth B. Cregier as a public necessity, he being in his sixteenth year (or nearly so) and five feet five and one-half inches in height by measurement, and to this end we affix our signature."

When everybody in the building had signed young Cregier went outside to other friends. He soon got 50 names. The petition was presented and the long trousers obtained.

### EARTH TO RESEMBLE MARS

**Flammarion Believes Martians Have Reached Stage of Development Undreamt Of.**

Paris.—Camille Flammarion, the famous author and astronomer, in an interview in one of the Paris papers, draws an extremely attractive picture of life in Mars. After pointing out that no one can predict what weather Paris will have next week, while it is known to an utmost certainty what kind of weather Mars will have a fortnight in advance, Flammarion goes on to say that there are many advantages in favor of the Martians.

First of all, he says, it would be difficult for any human species to be less intelligent than ours, seeing that we do not know how to control ourselves. A second reason is that progress is an absolute law which nothing can resist, and as the inhabitants of Mars

are older than we are, they may represent what we shall be in several millions of years. A third circumstance in their favor is that they are in a better position than we are to free themselves from the heaviness of matter. Martians weigh less and their years are twice as long as those on earth. Finally, climatic conditions on Mars appear to be much more agreeable.

Flammarion declares that the hypothesis that Mars is inhabited by an intellectual race, much superior to our own, is growing stronger every year as astronomical observations become more and more precise.

### KITE IN AIRSHIP FLIGHT.

**Canadian Ascends in Safety with Prof. Bell's Invention—Calls It "Frost King."**

Halifax, N. S.—Prof. Alexander Graham Bell thinks he is a step nearer the attainment of his ambition to perfect a flying machine based on the tetrahedral kite principle. He has been experimenting in this direction for several years on his estate of Beinn Bhreagh, Cape Breton.

Recently he succeeded in getting his latest designed kite, which he has named "Frost King," to lift Neill McDearmid, weighing 165 pounds, to a height of 30 feet, and support him there as steadily as if glued to the sky. This kite is named in honor of Walter Archer Frost, of Keenan, Wis., who recently was married to Miss Susan Winifred McCurdy, Mr. Bell's private secretary.

The kite, which is constructed of 1,300 tetrahedral cells having a total area of 752 square feet of silk, making a supporting surface of 440 square feet, carried aloft not only its own weight of 61 pounds, but also a load comprising flying lines, dangling ropes and a rope ladder, making 62 pounds more, together with McDearmid, a man of 165 pounds, a total altogether of 288 pounds.

### Give Young Man a Chance.

The Enid (Okla.) Wave has advocated the teaching of grafting in the public schools so that a young man will have an equal show with the old man. Not knowing the ropes and rules of success of the modern art of grafting, the young man just out of school has no chance with the old man.

### Humor Is Harmful.

An English publication says Mark Twain's humor is harmful. The English mind finds itself unable to forgive Mark because it took him seriously when he confessed that he had wept bitter tears over the grave of Adam.

### SOME DINNER DISHES.

**Baked Egg-Plant Is Delicious—Directions for Making an Excellent Punch and Salad.**

Boil a large egg-plant in plenty of water until it is perfectly tender, trying it with a straw. Let it stand in the colander to drain until cold. Then cut open and cut out the seeds, moisten carefully with a gill of milk, two eggs, a dessertspoonful of salt, a saltspoonful of white pepper, half a grated nutmeg, a heaping tablespoonful of butter and two tablespoonfuls of very fine breadcrumbs. Bake half an hour in a quick oven. A slow oven spoils it.

The following is an excellent punch to serve after the meat course and is easily made. Prepare a quart of light sirup with a gill of lemon juice and the rind of a lemon, cover, and allow it to infuse an hour, then strain carefully, and freeze in the usual way. Add a gill of Jamaica rum, mix well and serve in punch glasses.

Celery salad is both simple and more frequently served at dinners than any other variety. In the depth of winter eggs are of doubtful quality, and although often not sufficiently "gone" to add undesirable flavor, they do not mix readily. If Mayonnaise dressing is used, it can be mixed so as to lessen the danger of curdling by taking a spoonful of arrowroot and rub it smooth in a little cold water; boil and stir till it is clear, like starch. When cool, add salt, pepper, mustard and two yolks of eggs, beat until smooth, then add oil, as in regular Mayonnaise, then vinegar. This will neither curdle or run, and as the arrowroot is tasteless, the recipe is a good one in times when success cannot be risked.—Chicago Inter Ocean.

### Imports in 1905.

The total appraised value of merchandise handled by Appraiser Whitehead of the United States customs office at New York last year was \$705,611,497, an increase of \$72,500,000 over 1904, according to a statement. The chief lines of foreign merchandise and their appraised values were: Sugar, \$71,000,000; wool and woolen goods, \$64,000,000; coffee and cocoa, \$60,000,000; precious stones and pearls, \$37,000,000; cigars and tobacco, \$15,000,000; wines and liquors, \$11,000,000, and 1,054 automobiles, valued at \$4,000,000.

### Eccentric, That's All.

Mrs. Burke-Roche's father says he will disinherit her if she doesn't pay him more respect and live within her allowance of \$60,000 a year. He is an old man now, and the lady will probably regard his closeness as one of the eccentricities of advanced age.

### WHEN THE WORM TURNS.

**The Cook Finished Her Questions and the Mistress Took a Hand.**

"How many be's there in the family?"

"Three. My husband, myself and daughter."

"An' how many help do yez keep?"

"Three girls."

"How many afternoons out do yez let them off?"

"Every third Sunday, and one every week."

"Don't they have any evenin's to themselves?"

"Certainly—every evening after their work is done."

"But don't they get any whole evenin's?"

"Oh, yes. One every week."

"Well, mum, that bein' the case, I think I'll give yez a trial for awhile, anyways."

"Oh, thank you. But just a moment."

"Do you play the piano?"

"The planny, is it? No, mum, I do not."

"Well, I suppose you can mimic, or skirt dance, or cakewalk, or give dramatic readings from the poets or something like that?"

"I'm no actress, mum."

"Hum. Well, have you many expensive gowns, dinner dresses, ball gowns, and so forth?"

"I dress daint."

"Can you play a good game of bridge?"

"Divil a bit, mum. But forty-four."

"Ah-h. I'm the great cheat at forty-four."

"Dear me, this is too bad. But don't you golf, or tennis, or go in for athletics generally?"

"It's myself is no tomboy."

"This is too bad, too bad. But perhaps you have had your voice cultivated and can sing divinely?"

A long stare of wonder and question, writes Alex Ricketts, in Puck.

"No? Then I'm afraid you won't do. No, really, you won't do at all. You see, I want somebody who can entertain my guests while I do the work."

### Glass Dressing for Wounds.

The substitution of glass for lint in dressing certain kinds of wounds is the curious suggestion made by Dr. J. L. A. Aymard, M. R. C. S. Dr. Aymard describes an experiment with the new dressing which he himself undertook at Johannesburg hospital. After obtaining a piece of thick window glass, the edges of which were ground on an ordinary grindstone, he smeared it with carbolic oil and used it on a patient instead of lint. The wound, he says, subsequently healed up entirely, and will leave no trace of a scar. Two other cases, Dr. Aymard has treated with watch-glasses, the results being equally satisfactory.

### ENGLISHMEN IN DUELS.

**Some of the Famous Men Who Have Fought with Swords and Pistols.**

The earl of Kimberley's much discussed challenge to Col. Sapwell is a reminder that though the days of dueling are considered to have passed in England, the fighting spirit will still break out on occasions, says the London Express.

Not so very long ago Mr. Winston Churchill was challenged to an encounter a l'outrance by an irate constituent at Oldham. One hesitates to think what would have happened had Mr. Churchill had leisure enough to resume his martial role.

Lord Beaconsfield once challenged O'Connell to a duel, but the famous statesman found himself bound over to keep the peace in a police court instead of departing across the channel to blow out the brains of his political opponent.

O'Connell himself fought a duel with a member of the Irish house of commons named D'Esterre and killed his opponent.

Another fatal duel was that in which Lord Camelford, one of the most confirmed duellists of his day and a man who had the death of more than one fellow creature on his hands, was killed by Mr. Best. Both were excellent shots, and one of the two pistols used was supposed to be slightly more perfect than the other. A piece of money was tossed up to decide the choice. Best won, and in the result Lord Camelford fell mortally wounded.

The last duel fought in Ireland was between a mayor of Sligo and a member of the legal profession, but honors were declared easy, for nothing happened.

Mr. Tierney charged Pitt with "obstructing the defenses of the country," and that oratorical observation sounded so terrible in the ears of the eminent statesman that he sent his seconds to Mr. Tierney.

The two met at three o'clock one Sunday morning at Putney eath, not far from the Kingston road, fired two shots at each other and then returned home quite well for breakfast.

Charles James Fox, Pitt's brilliant rival, took occasion to make some scathing observations on the powder supplied by the war office and promptly received a challenge from Mr. Adams. Fox accepted, the duel was fought and the statesman was wounded.

"Adams," he is reported to have said on that lamentable occasion, "I do believe you'd have killed me if you hadn't used government powder."

### Sprinkle Salt.

If salt is sprinkled over the range before frying is commenced there will be no disagreeable odor if the fat splatters over.

### FLYING MACHINE BARRED.

**One Flight of Stairs Was High Enough for Her to Drop From.**

"Do you know, Mrs. O'Flynn," she said as she reached the gate dividing the two yards, "that they have invented a flying machine?"

"For the land's sake, no, Mrs. McCarthy! Is it that we are all going to fly through the air next?"

"That's what Patrick was reading in the paper an hour ago. The time from New York to Chicago will be only three hours, no matter which way the wind blows."

"Dear me, but what won't they get up next? I suppose you'll be skimming along in that machine about next week?"

"I never shall be able to, Mrs. O'Flynn."

"And for what reason?"

"For the dizziness of it. I've been married going on 20 years now, and yet it's just the same as at first. Patrick can't throw me down even one flight of stairs but what such a dizziness comes over me that he and the children seem to be swimming about my head for the next two days. The rest of yers may take wings, Mrs. O'Flynn, and know what it is to be angels, but it will never be for me—never for me."

### Tapioca Jelly for Invalids.

One cup of tapioca, three cups of cold water, juice of a lemon and a pinch of grated peel. Sweeten to taste. Soak the tapioca in the boiling water four hours. Set within a saucepan of boiling water; pour more lukewarm water over the tapioca if it has absorbed too much of the liquid, and heat, stirring frequently. If too thick after it begins to clear, put in a very little boiling water. When quite clear, put in sugar and lemon. Pour into molds. Eat cold, with cream flavored with rosewater and sweetened.
